

ROMANIAN PHOTOVOLTAIC INDUSTRY ASSOCIATION

The voice of the solar
industry and the associated
clean energy value chain

RPIA at a glance

60+

members across the PV value chain

4+

Flagship initiatives, including *The Code of Good Practice*, *Power Shift Summit*, *Solar Open Day* & *RESInvest*

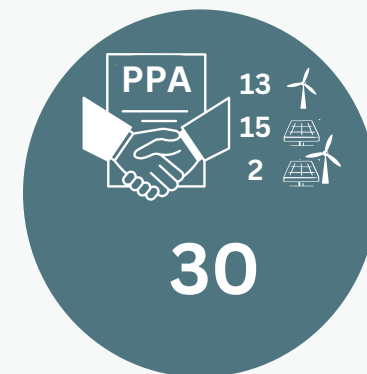

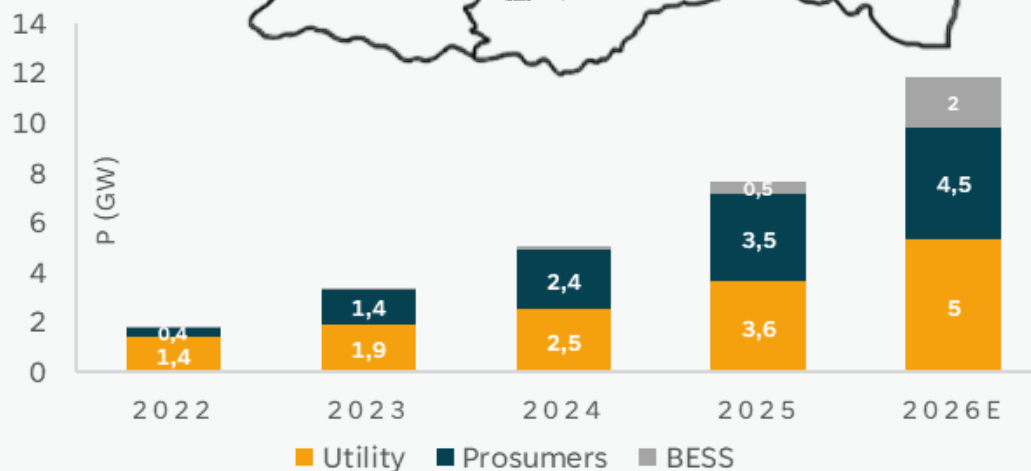

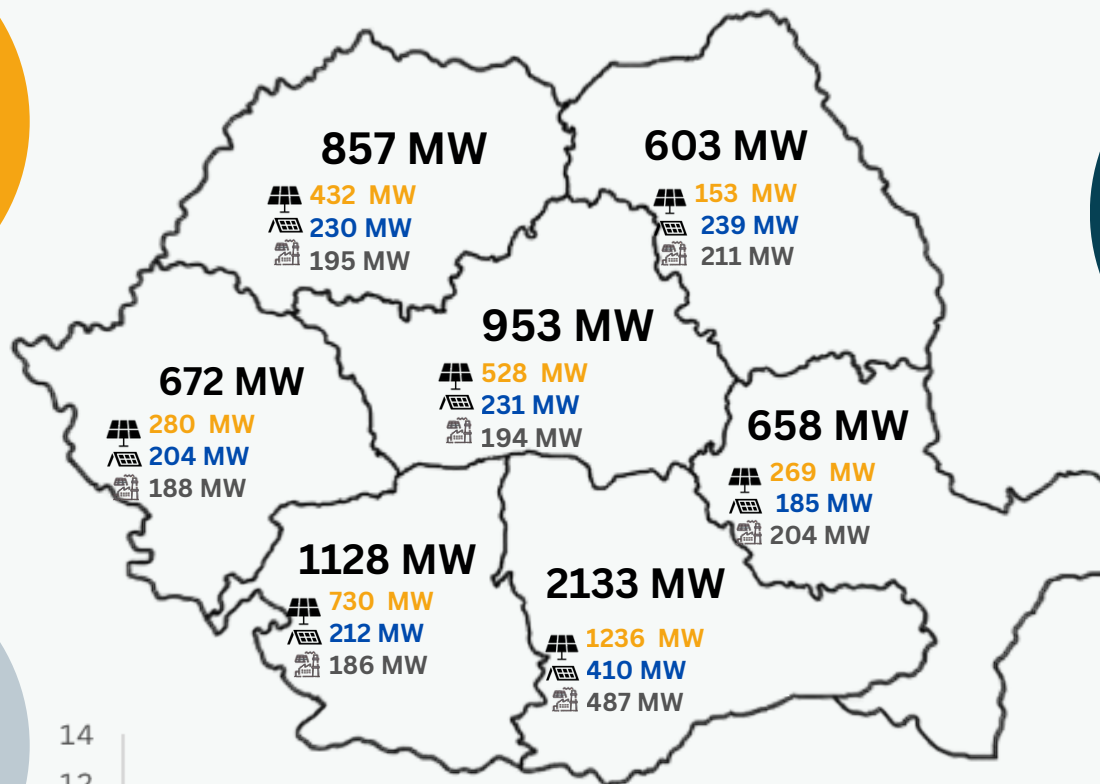

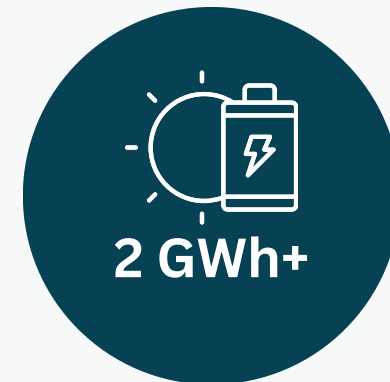

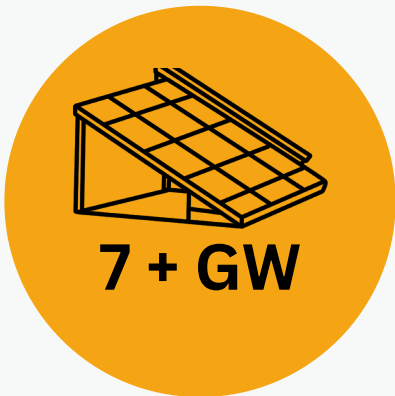

2

Horizon Europe Funded projects - RETRIEVE (Grant no. 101122332) & EMPOWER (Grant no. 11172767)

7+

GW of PV & BESS (installed and under construction)

Overview of Romania's PV market

Highlights & Future Outlook

Key developments

- **National solar targets** - 10 GW by 2030 (the NECP) & 14 GW by 2035 (the Energy Strategy)
- **Grid connection** - guarantees & new rules for obtaining the operational license
- **Storage** - a more streamlined grid connection procedure for BESS & the elimination of the double charging + BESS as a strategic priority
- **CfD** - three successful rounds that awarded 4.7 GW of RES (2 solar, 2.7 wind)

Future Outlook

- **Grid connection** - capacity tenders to be held in 2026
- **NZIA implementation** - for public procurement
- **Storage** - new support scheme for standalone BESS to be launched in the upcoming future
- **Guarantees of Origin** - Romania to become member of the AIB by Q4 2026, making GOs tradable in Europe
- **International presence** - Romania to become member of OECD by 2026

Interested in the Romanian market?

Visit our Intersolar Booth (Hall A4, Booth A4.133) & contact us to learn more about our solar initiatives and membership opportunities!
